The **Preferred Drug List** is a list of medications that may be covered under your prescription drug plan. This list was reviewed by an independent group of practicing doctors and pharmacists, and it contains medications made by most pharmaceutical manufacturers. It includes medications for many covered conditions.

Please note: Not all the medications on this preferred drug list are covered by all pharmacy benefit programs. Check your benefit materials for the specific covered medications and your co-payment information. For specific questions about your pharmacy benefit program, please call the phone number printed on your prescription ID card.

This guide does not contain a complete list of preferred drugs. It only lists the most commonly prescribed drugs. For an updated and complete listing of your prescription benefit, you can visit the “My Benefits” section of our website—www.medco.com—and click on the [Learn about formularies](#) link.

SAVING MONEY ON PRESCRIPTIONS

You may pay The amount of your co-payment depends on the drug your doctor prescribes for you.:
