

Prescription Program

Drug List/Formulary – To be used by members who have a tiered drug plan.

Blue Cross and Blue Shield of Georgia prescription drug benefits include medications available on the Blue Cross and Blue Shield of Georgia Drug List/Formulary. Our prescription drug benefits can offer potential savings when your physician prescribes medications on the drug list/formulary.

For more information,
please visit bcbsga.com.

- If you have additional questions about your prescription benefits please call the Member Services number on your ID card
- Speech and hearing impaired (TDD/TTY users) should call 800-221-6915, Monday – Friday, 8:30 a.m. – 5:00 p.m., ET
- For the most current version of this prescription drug list, please visit bcbsga.com
- Bring a copy of this drug list/formulary to your next doctor's visit to assist in selecting the lowest cost medications

KEY

Tier 1 – Lowest copayment – Drugs offering the greatest value within a therapeutic class. Some of these are generic equivalents of brand name drugs.

Tier 2 – Medium copayment – Drugs on this tier are generally the more affordable brand-name drugs. Other drugs are on this tier because they are “preferred” within their therapeutic classes, based on clinical effectiveness and value.

Tier 3 – Highest copayment – These are higher cost brand-name drugs. Some Tier 3 drugs may have generics or equivalents in Tier 1. In addition, some drugs on this tier may have been evaluated to be less cost-effective than equivalent drugs on lower tiers.

Tier 4 – Many drugs on this tier are “specialty” drugs used to treat complex, chronic conditions and may require special handling and/or management. For members who do not have a Tier 4 plan, these drugs are found under Tier 1, 2 or 3.

QUESTIONS AND ANSWERS

Q. What is a Drug List/Formulary?

A. The Blue Cross and Blue Shield of Georgia Drug List/Formulary is a list of FDA-approved brand-name and generic medications that have been reviewed and recommended for their quality and effectiveness by the National Pharmacy and Therapeutics (P&T) Committee. The P&T Committee is an independent group of practicing doctors and pharmacists responsible for the research and decisions surrounding our drug list. This group meets regularly to review new and existing drugs and choose the top medications for our drug list—based on their safety, effectiveness and value.

Drugs on the Blue Cross and Blue Shield of Georgia Drug List/Formulary are grouped by ‘tiers.’ A number of factors are considered when classifying drugs into tiers, including, but not limited to: the absolute cost of the drug; the cost of the drug relative to other drugs in the same therapeutic class; the availability of over-the-counter alternatives; and other clinical and cost-effectiveness factors.

Because the medications on the drug list/formulary are subject to periodic review, please ask your physician about the most current drug list additions and deletions or visit bcbsga.com.

Brand-name: A brand-name drug is usually available from only one manufacturer and may have patent protection.

Generic: A generic drug is required by the FDA to have the same active ingredients as its brand-name counterpart, but is normally only available after the patent protection expires on a brand-name drug. Although it may look different, a generic drug works the same as its brand-name counterpart. You can save money by using generic medications.

Q. What if my physician or I choose a brand-name drug when a generic equivalent is available?

A. In most cases, you would be responsible for the appropriate tier copay. This copay may include an additional charge that represents the cost difference between the brand-name medication and the generic equivalent.

Q. What are ‘clinically equivalent’ medications? How does this affect my drug coverage?

A. The P&T Committee reviews the most current research available to determine if multiple drugs used to treat a disease/condition produce the same clinical effect. When this is the case, the committee may recommend that we cover only the lower cost drug(s) as part of our effort to help reduce the overall cost of care. This means your specific prescription plan may not cover some drugs in classes with ‘clinically equivalent’ alternatives.

Q. What if my medication is not on the drug list/formulary?

A. An open drug list allows members and their physicians to choose from a wide variety of prescription medications. Please talk with your doctor about prescribing a Tier 1 or Tier 2 medication. If a Tier 3 medication is selected, you will be responsible for the applicable Tier 3 copayment.

You or your physician may submit a request to add a drug to the drug list/formulary either in writing or on our web site. Requests are taken into consideration by the P&T Committee during the drug list/formulary review process.

Inclusion of a medication on the drug list/formulary is not a guarantee of coverage. Some drugs, such as those used for cosmetic purposes, may be excluded from your benefits. Please refer to your Certificate or Evidence of Coverage for coverage limitations and exclusions.

Tier 1

Acarbose	Atenolol	Cefaclor	Dexmethylphenidate	Ethinyl estradiol/ norethindrone PA	Guaifenesin
Acebutolol	Atenolol/chlorthalidone	Cefaclor ER	Dextroamphetamine	Ethosuximide	Guaifenesin SR
Acetaminophen/caffeine/ butalb	Atropine sulfate	Cefadroxil	Dextromethorphan/ guaifenesin	Etodolac	Guaifenesin/dextrometh
Acetazolamide, SR	Aviane PA	Cefdinir	Diazepam	Etodolac ER	Guaifenesin/hydrocodone
Acetic acid	Azathioprine	Cefditoren	Diclofenac potassium	Etoposide	Guanabenz
Acetic acid/aluminum acetate	Azelastine QL	Cefepime	Diclofenac sodium Ophth.	Famciclovir	Guanfacine
Acetic acid/ hydrocortisone	Azelastine nasal QL	Cefprozil	Diclofenac, ER	Famotidine	Halobetasol
Acetic acid otic	Azithromycin QL	Cefuroxime QL	Dicloxacillin	Felodipine DO, QL	Haloperidol
Acetylcholine	Bacitracin zinc/polymyxin B	Cephalexin	Dicyclomine	Fenofibrate	Heparin*
Acyclovir	Bacitracin/polymyxin/ neomycin-hc oph oint	Chloral hydrate	Didanosine	Fenofibric acid	Homatropine
Adapalene	Baclofen	Chlordiazepoxide	Diflorasone diacetate	Fenopropfen	Hydralazine
Albuterol	Balsalazide	Chlorhexidine gluconate	Diflunisal	Fentanyl PA, QL	Hydralazine/HCTZ
Albuterol/ipratropium	Belladonna/ phenobarbital	Chloroquine 250mg	Digoxin	Fexofenadine QL	Hydrochlorothiazide
Alendronate QL	Benazepril, HCTZ	Chlorothiazide	Diltia XT DO, QL	Fexofenadine/PSE 12hr QL	Hydrocodone w/ homatropine
Allopurinol	Benzoyl peroxide	Chlorpheniramine/ phenylephrine	Diltiazem	Finasteride	Hydrocodone/APAP QL
Alprazolam	Benzoyl peroxide/ clindamycin	Chlorpheniramine/ pseudoephedrine	Diltiazem CD DO, QL	Flecainide	Hydrocortisone 2.5% cream, ointment, lotion
Amantadine	Benzoyl peroxide/ erythromycin	Chlorpromazine tab	Diltiazem CR DO, QL	Fluconazole	Hydrocortisone enema
Amcinonide	Benzotropine	Chlorpropamide	Diltiazem SR DO, QL	Fludrocortisone	Hydromorphone
Amiloride	Betamet diprop/prop gyl	Chlorthalidone	Diphenhydramine 50mg	Flunisolide Nasal Spray	Hydroxychloroquine
Amiloride/ hydrochlorothiazide	Betamethasone dipropionate	Chlorzoxazone	Diphenoxylate/atropine sulfate	Fluocinolone acetonide	Hydroxyurea
Aminophylline	Betamethasone valerate	Cholestyramine, light	Dipivefrin HCl	Fluocinonide	Hydroxyzine HCL
Amiodarone	Betaxolol	Chorionic gonadotropin	Dipyridamole	Fluorometholone	Hydroxyzine PA moate
Amitriptyline	Bethanechol	Ciclopirox	Disopyramide	Fluorouracil	Hyoscyamine
Amitriptyline/ chlordiazepoxide	Bicalutamide	Cimetidine	Disopyramide CR 150mg	Fluoxetine DO, QL	Ibuprofen
Amitriptyline/ perphenazine	Bisoprolol	Ciprofloxacin QL	Divalproex, ER	Fluphenazine	Imipramine
Amlodipine DO, QL	Bisoprolol/HCTZ	Citalopram DO, QL	Dorzolamide	Flurazepam	Indapamide
Amlodipine/benazepril	Brimonidine	Clemastine fumarate	Dorzolamide/timolol	Furazepam	Indomethacin, SR
Amnesteem QL	Bromocriptine	Clindamycin	Doxazosin mesylate	Furibuprofen	Ipratropium bromide neb soln/nasal spray QL
Amphetamine- dextroamphetamine	Budeprion XL DO, QL	Clobetasol	Doxepin	Furibuprofen sodium	Iron combination capsule
Amphetamine- dextroamphetamine ER ST ^	Bumetanide	Clomiphene	Doxycycline	Flutamide	Iron/intrinsic factor/B12
Amoxapine	Buprenorphine QL	Clomipramine	Doxycycline monohydrate	Fluticasone Nasal Spray QL	Iron/B12/folic acid
Amoxicillin	Bupropion	Clonazepam	Dronabinol	Fluvoxamine DO	Isoniazid
Amoxicillin/clavulanate, ER QL	Buspirone	Clonidine	Dyphylline	Folic acid	Isosorbide dinitrate
Amphetamine	Butalbital Compound w/Codeine	Clorazepate	Econazole	Fosinopril DO, QL	Isosorbide mononitrate
Ampicillin	Butorphanol tartrate 10mg/ml N.S. QL	Clozapine	Enalapril, HCTZ	Fosinopril HCTZ	Isotretinoin QL
Anastrozole	Cabergoline	Codeine sulfate	Enoxaparin	Furosemide	Itraconazole PA
Antipyrine/benzocaine	Calcipotriene Soln.	Codeine/APAP QL	Ergotamine	Gabapentin	Ketoconazole
APAP/caffeine/butalbital	Calcium Acetate	Colchicine	Ergotamine/belladonna/PB	Galantamine, SR	Ketoprofen, ER
Apri PA	Captopril, HCTZ	Cromolyn	Erythromycin	Ganciclovir	Ketorolac QL
Asa/codeine	Carbamazepine, ER	Cyclobenzaprine	Erythromycin base	Gemfibrozil	Ketorolac tromethamine
Aspirin/caffeine/ butalbital	Carbidopa/levodopa	Cyclopentolate	Erythromycin ethylsuccinate	Gentamicin	Labetalol
	Carbidopa/levodopa CR	Cyclophosphamide	Erythromycin/ sulfisoxazole	Gianvi PA	Lactulose
	Carisoprodol	Cyproheptadine	Estradiol	Glimepiride	Lamotrigine
	Carteolol hcl	Danazol	Estradiol/ norethindrone PA	Glipizide XL	Lansoprazole QL
	Cartia XT DO, QL	Desipramine	Estropipate	Glipizide/metformin	leflunomide
	Carvedilol	Desmopressin acetate	Ethambutol	Glyburide	Leucovorin
		Desonide	Ethinyl estradiol/ ethynodiol diacetate PA	Glyburide micronized	Leuprolide PA *
		Desoximetasone		Glyburide/metformin	Levalbuterol

KEY

[†] A generic equivalent of this drug recently became available or will be available soon. After the generic drug becomes available and notification requirements are met, this brand-name drug will become non-formulary/Tier 3 or may no longer be covered by your prescription drug plan. Check bcbsga.com to find out about changes in formulary status.

[^] This product has clinically equivalent alternatives included on the formulary and, as a consequence, such product may not be covered under your pharmacy benefit. Please consult your on-line pharmacy account through your health plan website, bcbsga.com, for details on coverage.

* = These drugs are Tier 1, 2 or 3 for those members that do not have a Tier 4 plan

PA = PRIOR AUTHORIZATION REQUIRED. Prior authorization is the process of obtaining approval of benefits before certain prescriptions may be filled.

QL = QUANTITY LIMITS. Certain prescription drugs have specific quantity limits per prescription or per month.

ST = STEP THERAPY REQUIRED. You may need to use one medication before benefits for the use of another medication can be authorized. Please note: Foradil and Serevent are safety edits that prevent duplication of therapy.

DO = DOSE OPTIMIZATION REQUIRED. Normally involves the conversion from twice-daily dosing to a once-daily dosing schedule.

Not all medications and not all plans are subject to prior authorization and quantity limits. For more information regarding prior authorization or quantity limits, contact Member Services at the telephone number listed on your identification card.

For more information, please visit bcbsga.com.

- If you have additional questions about your prescription benefits please call the Member Services number on your ID card
- Speech and hearing impaired (TDD/TTY users) should call 800-221-6915, Monday – Friday, 8:30 a.m. – 5:00 p.m., ET
- For the most current version of this prescription drug list, please visit bcbsga.com
- Bring a copy of this drug list/formulary to your next doctor's visit to assist in selecting the lowest cost medications
