Are you **SELF-EMPLOYED?** A student or recent graduate?
 Employed **PART-TIME** with no dental benefits? **BETWEEN JOBS?**
 Looking to **save money?**

Then a CoventryOne® dental policy could be just what you've been looking for.

Oral disease prevention should be just as important to individuals and families as preventive medical tests and screenings. Untreated tooth decay and advanced gum disease can leave you in pain and affect your quality of life. According to the Centers for Disease Control and Prevention (CDC), recent studies link oral infections with major health complications such as diabetes, heart disease and stroke.
