We've added a new feature, called Deductible Credit. It can help you reduce your future out-of-pocket expenses. If you don't meet your per-person calendar-year network deductible, the Deductible Credit applies to next year's network deductible. See page 15 for details.

The Network Advantage

Quality Care at Significant Savings

Access to the right doctors can be the most important part of your health care.

Our network gives you:

- Access to an **extensive network** of doctors, X-ray and lab facilities, hospitals, and other ancillary providers.*
- **Quality care** at reduced costs because these providers have agreed to lower fees for covered expenses.
- **Lower premiums** — savings of up to 25% or more over the same plans without a network.

Please note: Covered expenses for nonemergency care received from a provider outside your network are:

- Subject to reasonable and customary charges;
- Reduced by 25%;
- Subject to an additional deductible amount equal to the calendar-year deductible.

For Services of Non-Network Providers: Your actual out-of-pocket expenses for covered expenses may exceed the stated coinsurance percentage because actual provider charges may not be used to determine insurer and member payment obligations.

Sample savings with our network:

Network availability may vary by state, and a specific health care provider's contract status can change at any time. Therefore, before you receive care, it is recommended that you verify with the health care provider's office that they are still contracted with your chosen network.

**All these services received from network providers in ZIP Code 336--. Your actual savings may be more or less than this illustration and will vary by several factors.

Health Savings Account (HSA) Plans

HSA Plans Offer Quality Coverage, Savings

HSA Plans simply combine a lower-cost, high deductible health insurance plan and a tax-favored savings account.

Lower Premiums, Tax-Advantaged Savings, and an Attractive Interest Rate*

High deductible plans typically cost a lot less than many copay or traditional plans. This means lower premiums for you. You can then take the premium savings and place it into your health savings account.

- You get a tax deduction on the money you put in your HSA.
- Your dollars can grow tax-deferred.
- You spend the savings tax-free to help pay your deductible or for qualified medical care (including prescriptions, vision, or dental care).
- What you don't use in your account will continue to accumulate year after year. Then, if you ever need it for health care expenses, the money will be there.
- With Golden Rule's HSA custodian, you'll also earn interest on your savings, beginning with the first dollar deposited.

Bottom line — HSAs can help make health insurance more affordable.

*See HSA insert for important information.

Who might benefit most from a Health Savings Account Plan?

- Persons interested in more control over how their health care dollars are spent.
- Families interested in one calendar-year deductible per family.
- Those interested in trading low deductible health insurance for a higher deductible plan to save money on monthly premiums and taxes.

Provisions That Apply to All Plans

This brochure is only a general outline of the coverage provisions. It is not an insurance contract, nor part of the insurance policy. You'll find complete coverage details in the policy.

Deductible Credit

It can help you reduce your future out-of-pocket expenses.

Eligibility for a deductible credit is determined in January of each year. To qualify for a deductible credit in any given calendar year you must:

- be a qualified covered person (or family for HSA family plans) for at least 6 consecutive months the previous year.
- not meet the previous per person (or family for HSA family plans) calendar-year's deductible.

A credit will be applied towards the current calendar-year deductible, as outlined in the chart below:

Each qualified covered person (or family for HSA family plans) with at least 6 months of coverage and not meeting the plan's chosen network deductible for:	Receives this credit for the next calendar-year:
1 year	20% of chosen network deductible
2 consecutive years	40% of chosen network deductible
3 or more consecutive years	50% of chosen network deductible

With a Health Savings Account plan (HSA 100[®] and HSA 75SM), the deductible credit will never reduce the deductible below the minimum required by law to maintain tax-qualified status of the insurance plan. The minimum for 2011 and 2012 is \$1,200 for singles and \$2,400 for families.

Transplant Expense Benefit

The following types of transplants are eligible for coverage under the Medical Benefits provision:

Cornea transplants, artery or vein grafts, heart valve grafts, and prosthetic tissue replacement, including joint replacements and implantable prosthetic lenses, in connection with cataracts.

Transplants eligible for coverage under the Transplant Expense Benefit are:

Heart, lung, heart and lung, kidney, liver, and bone marrow transplants.

Golden Rule has arranged for certain hospitals around the country (referred to as our "Centers of Excellence") to perform specified transplant services. If you use one of our "Centers of Excellence," the specified transplant will be considered the same as any other illness and will include a transportation and lodging incentive (for a family member) of up to \$5,000. Otherwise, the acquisition cost for the organ or bone marrow will not be covered, and covered expenses related to the transplant will be limited to \$100,000 and one transplant in a 12-month period.

To qualify as a covered expense under the Transplant Expense Benefit, the covered person must be a good candidate, and the transplant must not be experimental or investigational. In considering these issues, we consult doctors with expertise in the type of transplant proposed.

The following conditions are eligible for bone marrow transplant coverage:

Allogenic bone marrow transplants (BMT) for treatment of: Hodgkin's lymphoma or non-Hodgkin's lymphoma, severe aplastic anemia, acute lymphocytic and nonlymphocytic leukemia, chronic myelogenous leukemia, severe combined immunodeficiency, Stage III or IV neuroblastoma, myelodysplastic syndrome, Wiskott-Aldrich syndrome, thalassemia major, multiple myeloma, Fanconi's anemia, malignant histiocytic disorders, and juvenile myelomonocytic leukemia.

Autologous bone marrow transplants (ABMT) for treatment of: Hodgkin's lymphoma, non-Hodgkin's lymphoma, acute lymphocytic and nonlymphocytic leukemia, multiple myeloma, testicular cancer, Stage III or IV neuroblastoma, pediatric Ewing's sarcoma and related primitive neuroectodermal tumors, Wilms' tumor, rhabdomyosarcoma, medulloblastoma, astrocytoma, glioma, and breast cancer (not applicable to Saver Plans).

Notification Requirements

You must notify us by phone on or before the day a covered person:

- Begins the fourth day of an inpatient hospitalization; or
- Is evaluated for an organ or tissue transplant.

Failure to comply with Notification Requirements will result in a 20% reduction in benefits, to a maximum of \$1,000.

If it is impossible for you to notify us due to emergency inpatient hospital admission, you must contact us as soon as reasonably possible.

Our receipt of notification does not guarantee either payment of benefits or the amount of benefits. Eligibility for and payment of benefits are subject to all terms and conditions of the policy. You may contact Golden Rule for further review if coverage for a health care service is denied, reduced, or terminated.

Rehabilitation and Extended Care Facility (ECF) Benefit

Rehabilitation and inpatient Extended Care (ECF) expenses are covered if they begin within 14 days of a 3-day or more hospital stay, for the same illness or injury. There is a combined calendar-year maximum of 60 days for both Rehabilitation and ECF expenses.

Carryover Deductible Amount

(Does not apply to HSA 100[®] or HSA 75SM plans.)

If a covered person incurs expenses, during the last three months of a calendar year, for which benefits are not paid because the expenses were applied to that calendar year's stated deductible, those expenses will also be applied to the next calendar year's stated deductible.

Provisions That Apply to All Plans (continued)

Home Health Care Expense Benefit

To qualify for benefits, home health care must be provided through a licensed home health care agency.

Subject to deductible and coinsurance, covered expenses for home health aide services are limited to seven visits per week and a lifetime maximum of 365 visits. Registered nurse services are limited to a lifetime maximum of 1,000 hours. Benefits for inpatient care in a hospice are subject to deductible and coinsurance and limited to 180 days in a covered person's lifetime. Covered expenses for room and board are limited to the most common semiprivate room rate of the hospital or nursing home with which the hospice is associated. Bereavement counseling maximum of \$250.

Eligible expense means a covered expense as determined below:

- When using an in-network physician or facility, non-covered expenses may not be eligible for a network provider discount.
- "Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:
 - Placing the health of the covered person (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
 - Serious impairment to bodily functions; or
 - Serious dysfunction of any bodily organ or part.

Effective Date

Unless we agree to an earlier date, the effective date will be the later of: (a) the requested effective date, or (b) 15 days after the application is received by Golden Rule.

Premium

We may adjust the premium rates from time to time. Premium rates are set by class, and you will not be singled out for a premium change regardless of your health. The policy plan, age and sex of covered persons, type and level of benefits, time the certificate has been in force, and your place of residence are factors that may be used in setting rate classes. Premiums will increase the longer you are insured. You will be given at least a 60-day notice (or longer if required by your state) of any change in your premium.

Dependents

For purposes of this coverage, eligible dependents are your lawful spouse and eligible children. Eligible children must be under 26 years of age at time of application.

Termination of a Covered Person

A covered person's coverage will terminate on the date that person no longer meets the eligibility requirements or if the covered person commits fraud or intentional misrepresentation.

Continued Eligibility Requirements

A covered person's eligibility will cease on the date that a covered person ceases to be a dependent.

Renewability

You may renew coverage by paying the premium as it comes due. We may decline renewal only:

- For failure to pay premium; or
- If we decline to renew all policies just like yours issued to everyone in the state where you are then living.

Underwriting

Coverage will not be issued as a supplement to other health plans that you may have at the time of application. Plans are subject to health underwriting. If you provide incorrect or incomplete information on your insurance application your coverage may be voided or claims denied.

Prior to Legal Action

To help resolve disputes before litigation, the policy requests that you provide us with written notice of intent to sue prior to legal action. This notice must identify the source of the disagreement, including all relevant facts and information supporting your position.

Medicare — Carve-Out

Covered persons who reach the age of Medicare eligibility and obtain Medicare coverage may continue coverage under these plans. Benefits will be provided according to the Medicare Carve-Out Benefit Reduction provision. Basically, "carve-out" pays the difference between what Golden Rule benefits normally would pay and what is paid by Medicare.

The policy also provides coverage for listed transplants, which include heart; lung; heart/lung; kidney; and liver transplants; and bone marrow transplants as listed in the policy. Amount Payable

"Coinsurance percentage" means the percentage of covered expenses that are payable by us, as shown on the policy Data Page.

"Deductible amount" means the amount of covered expenses that must be paid by each covered person before any benefits are payable.

"Eligible expense" means a covered expense that is determined as follows:

A. For network providers (excluding Transplant Benefits), the eligible expense is the contracted fee with that provider.

B. For non-network providers:

1. The eligible expense is the lesser of the billed charge or a lower amount negotiated with the provider or authorized by state law for covered expenses that are:
 - (a) Received as a result of an emergency;
 - (b) Otherwise approved by us; or
 - (c) For a service or supply that is not of a type provided by any network provider.
2. Except as provided under 1 above, when a covered expense (excluding Transplant Benefits) is received from a non-network provider, the eligible expense is determined based on:
 - (a) The fee charged by the provider for the services;

- (b) The fee that has been negotiated with the provider;
- (c) The fee established by us by comparing rates from one or more regional or national databases or schedules for the same or similar services from a geographical area determined by us;
- (d) 110% of the fee Medicare allows for the same or similar services provided in the same geographical area; or
- (e) A fee schedule that we develop.

The “variable deductible” is equal to the amount of benefits payable for covered expenses by any other plan.

Amount Payable: The deductible amount is the larger of the stated deductible or a variable deductible. The stated deductible varies according to the type of plan and amount selected by the insured. (Please see the policy Data Page for more information.) We may apply the variable deductible even though the stated deductible has been satisfied.

If payment is calculated using the variable deductible, the coinsurance percentage will be 100 percent. The effect of the variable deductible is to pay 100 percent of the covered person's out-of-pocket expenses.

We will pay the applicable coinsurance percentage in excess of the applicable deductible amount for a service or supply that qualifies as a covered expense and is received while the covered person's coverage is in force under the policy, if the charge for the service or supply qualifies as an eligible expense.

The amount payable will be subject to any specific benefit limits stated in the policy, a determination of eligible expenses, and any reduction for expenses incurred at a non-network provider.

Non-emergency non-network eligible expenses will be reduced by 20%/25% before application of any applicable deductible amount(s), coinsurance provisions, and/or copayment amounts.

Note: The bill you receive for services or supplies from a non-network provider may be significantly higher than the eligible expenses for those services or supplies. In addition to the deductible amount, coinsurance, and copayment, you are responsible for the difference between the eligible expense and the amount the provider bills you for the services or supplies. Any amount you must pay to the provider in excess of the eligible expenses will not apply to your deductible amount or maximum out-of-pocket expenses.

Deductible Credit: A covered person will be eligible for a credit if, in any given calendar year, he or she did not meet the applicable deductible amount, has been a covered person for at least 6 consecutive months, and has been in active status for at least the last 6 months if the UnitedHealthcare Continuity rider is part of the policy. The deductible credit will apply to the deductible amount in the following calendar year.

Carryover Deductible: If covered expenses are applied toward the stated deductible during the last 3 months of a calendar year, those expenses will also be applied to the next calendar year's stated deductible. Not applicable to HSA plans.

Notification

You must notify us on or before the day a covered person begins the 4th day of an inpatient hospitalization or is evaluated for an organ or tissue transplant. If you fail to notify us, benefits will be reduced to 80% of the regular policy benefits, up to a maximum reduction of \$1,000. This does not apply to an inpatient hospital admission for emergency treatment.

In no event will we pay for charges that are: (A) not made or ordered by a doctor; or (B) not medically necessary to the diagnosis or treatment of an illness or injury.

Preexisting Conditions

A “preexisting condition” means an injury or illness:

- A. For which medical advice; diagnosis; care; or treatment was recommended to or received by a covered person within the 24 months immediately preceding the applicable effective date the covered person became insured under the policy; or
- B. That, in the opinion of a qualified doctor:
 1. Began prior to the applicable effective date the covered person became insured under the policy; or
 2. Manifested symptoms that would cause an ordinarily prudent person to seek medical advice; diagnosis; or treatment within the 12 months immediately preceding the applicable effective date the covered person became insured under the policy.

For covered persons ages 19 years and over, expenses due to a preexisting condition will not be covered during the first 12 months after the date the covered person becomes insured under the policy.

Term of Coverage and Renewability

The policy term begins as of the effective date of the policy. You may keep the policy in force by paying us the required premium as it comes due. However, we may cancel the policy if there is fraud or material misrepresentation made by or with the knowledge of a covered person in filing a claim.

Benefits will continue to be paid for an illness or injury after a person's coverage terminates, provided the illness or injury causes a period of extended loss that begins while the covered person is still covered by the policy.

Transplant Benefits: The following types of tissue transplants are covered expenses: cornea transplants; artery or vein grafts; heart valve grafts; prosthetic tissue replacement (including joint replacement); and implantable prosthetic lenses in connection with cataracts. The policy also provides coverage for listed transplants, which include heart; lung; heart/lung; kidney; and liver transplants; and bone marrow transplants as listed in the policy. The amount of benefits under the policy for a listed transplant depends upon whether it is performed in one of our Centers of Excellence.

Home Health Care Benefits: The policy provides benefits for home health care. Benefits for home health aide services are limited to 7 visits per week and a lifetime maximum of 365 visits. Benefits for outpatient private duty registered nurse services are limited to a lifetime maximum of 1,000 hours. Benefits for intermittent private duty registered nurse services are limited to \$75 per visit.

Hospice Care Expense Benefits: The policy provides benefits for hospice care for a terminally ill covered person who receives medically necessary care under a hospice care program, limited to 180 days in a covered person's lifetime.

Rehabilitation and Extended Care Facility Expense

Benefits: The policy provides benefits for rehabilitation services or an inpatient stay in a rehabilitation facility or extended care facility that begins within 14 days of a hospital stay of at least 3 days and is for treatment of, or rehabilitation related to, the same illness or injury that required the hospital stay. Covered expenses are limited to 60 days per calendar year for each covered person.

Amount Payable

"Coinsurance percentage" means the percentage of covered expenses that are payable by us, as shown on the policy Data Page.

"Deductible amount" means the amount of covered expenses that must be paid by each covered person before any benefits are payable.

"Eligible expense" means a covered expense that is determined as follows:

- A. For network providers (excluding Transplant Benefits), the eligible expense is the contracted fee with that provider.
- B. For non-network providers:
 1. The eligible expense is the lesser of the billed charge or a lower amount negotiated with the provider or authorized by state law for covered expenses that are:
 - (a) Received as a result of an emergency;
 - (b) Otherwise approved by us; or
 - (c) For a service or supply that is not of a type provided by any network provider.
 2. Except as provided under 1 above, when a covered expense (excluding Transplant Benefits) is received from a non-network provider, the eligible expense is determined based on:
 - (a) The fee charged by the provider for the services;
 - (b) The fee that has been negotiated with the provider;

- (c) The fee established by us by comparing rates from one or more regional or national databases or schedules for the same or similar services from a geographical area determined by us;
- (d) 110% of the fee Medicare allows for the same or similar services provided in the same geographical area; or
- (e) A fee schedule that we develop.

Amount Payable: The deductible amount varies according to the type of plan and amount selected by the insured. (Please see the policy Data Page for more information.)

We will pay the applicable coinsurance percentage in excess of the applicable deductible amount for a service or supply that qualifies as a covered expense and is received while the covered person's coverage is in force under the policy, if the charge for the service or supply qualifies as an eligible expense.

The amount payable will be subject to any specific benefit limits stated in the policy, a determination of eligible expenses, and any reduction for expenses incurred at a non-network provider.

Non-emergency non-network eligible expenses will be reduced by 25% before application of any applicable deductible amount(s), coinsurance provisions, and/or copayment amounts.

Note: The bill you receive for services or supplies from a non-network provider may be significantly higher than the eligible expenses for those services or supplies. In addition to the deductible amount, coinsurance, and copayment, you are responsible for the difference between the eligible expense and the amount the provider bills you for the services or supplies. Any amount you must pay to the provider in excess of the eligible expenses will not apply to your deductible amount or maximum out-of-pocket expenses.

Deductible Credit: A covered person will be eligible for a credit if, in any given calendar year, he or she did not meet the applicable deductible amount, has been a covered person for at least 6 consecutive months, and has been in active status for at least the last 6 months if the UnitedHealthcare Continuity rider is part of the policy. The deductible credit will apply to the deductible amount in the following calendar year.

Carryover Deductible: If covered expenses are applied toward the deductible amount during the last 3 months of a calendar year, those expenses will also be applied to the next calendar year's deductible amount.

Notification

You must notify us on or before the day a covered person begins the 4th day of an inpatient hospitalization or is evaluated for an organ or tissue transplant. If you fail to notify us, benefits will be reduced to 80% of the regular policy benefits, up to a maximum reduction of \$1,000. This does not apply to an inpatient hospital admission for emergency treatment.

What Is Not Covered

No benefits will be paid for: (A) loss for which no charge would be made in the absence of insurance; (B) charges that are actually the responsibility of the provider to pay; (C) any services performed by a member of a covered person's immediate family; or (D) services not identified as covered expenses under the policy.

Except as expressly provided for by the policy, expenses for alternative treatments, including acupressure; acupuncture; aroma therapy; hypnotism; massage therapy; rolfing; and other forms of alternative treatment as defined by the Office of Alternative Medicine of the National Institutes of Health.

In no event will we pay for charges that are: (A) not made or ordered by a doctor; or (B) not medically necessary to the diagnosis or treatment of an illness or injury.

Preexisting Conditions

A "preexisting condition" means an injury or illness:

- A. For which medical advice; diagnosis; care; or treatment was recommended to or received by a covered person within the 24 months immediately preceding the applicable effective date the covered person became insured under the policy; or
- B. That, in the opinion of a qualified doctor:
 - 1. Began prior to the applicable effective date the covered person became insured under the policy; or
 - 2. Manifested symptoms that would cause an ordinarily prudent person to seek medical advice; diagnosis; or treatment within the 12 months immediately preceding the applicable effective date the covered person became insured under the policy.

For covered persons ages 19 years and over, expenses due to a preexisting condition will not be covered during the first 12 months after the date the covered person becomes insured under the policy.

Term of Coverage and Renewability

The policy term begins as of the effective date of the policy. You may keep the policy in force by paying us the required premium as it comes due. However, we may cancel the policy if there is fraud or material misrepresentation made by or with the knowledge of a covered person in filing a claim.

Benefits will continue to be paid for an illness or injury after a person's coverage terminates, provided the illness or injury causes a period of extended loss that begins while the covered person is still covered by the policy.

Health Savings Account Management Options

Health Savings Account Debit Card

Health care and Savings for you

Selecting a Health Savings Account plan? We've made HSA management easy for you. We have chosen a leading administrator of health savings accounts as our financial institution. You start with a joint application for insurance and savings account. One payment (monthly or quarterly) takes care of your health insurance premium and HSA deposit. The security of health insurance and an FDIC insured savings account - they go together!

In 2012, HSA holders can choose to save up to \$3,100 for an individual and \$6,250 for a family (HSA holders 55 and older get to save an extra \$1,000 - which means \$4,100 for an individual and \$7,250 for a family) and these contributions are 100% tax deductible from gross income.

HSA Management

Your money is easily available with a Health Savings Account Debit Card. Plus, you can manage your account online or by phone and be confident knowing that regular savings are FDIC insured.

Supplemental Accident Benefit

Higher deductibles don't have to be scary!

You may choose an optional Supplemental Accident benefit to reduce your out-of-pocket expenses for unexpected injuries.

- Select a maximum benefit amount: \$500, \$1,000, \$2,500, \$5,000, or \$10,000, per accident, per covered person.
- Helps cover your deductible or other out-of-pocket medical expenses (before the health insurance starts paying covered expenses).
- Expenses must be eligible for payment under the health insurance and incurred within 90 days of an injury.*
- Any benefit amount paid by the Supplemental Accident benefit will first be credited to the deductible and coinsurance of the health insurance.*
- Any remaining benefit payment will be made either to your health care provider under your assignment of benefits, or to you if you have already paid your provider.
- Additional premium is required for the optional Supplemental Accident benefit rider.
- Exclusions and limitations of the health plan apply to this optional benefit, see product brochure for details.

Accidents happen. Unexpected injuries can hurt your budget. A simple arm fracture treated in the doctor's office can cost \$324. However, an open-arm fracture can result in a hospital stay, surgery, and physical therapy — for a total cost of more than \$23,000!**
